- Patient safety strap
- Hand control for electronic functions
See options for foot controls – ergonomic
- 600 lbs. LIFT Capacity 900 lbs. LOAD Capacity
- 76" Length — 30" Width

RECOMMENDED ERGONOMIC OPTIONS

- Power Drop Section - Open/close the section with the handheld control or optional foot controls
- Power Wedge Section - Open/close the section with the handheld control or optional foot control
- Power Foot Panel - Drop the foot panel into any increment you desire
- Ultra-Low Column lowers the bed to 19" and raises to 38". Ideal for wheelchair transfer height making it easier for the patient to enter and exiting the bed
- Ergo Rails side rails - swing down and lock under the bed frame, leaving space for sonographer's knees
- Head Rails - 2 styles to choose from. Head rails help the patient position themselves, saving the sonographer from lifting and assisting them into place

MADE IN USA | BED ARRIVES FULLY ASSEMBLED

It takes one to know one.

A bit about us...the Stasney team.

SonoBed™s are custom designed and hand crafted by registered Sonographer Jason Stasney RVT, RDCS.

Angela Stasney teaches sonographers the importance of ergonomics and how equipment choices, along with simple daily exercise, can further their careers.

You can easily reach us any time at **888.256.8748**.
